

FLTPD XV

Frontiers in Low Temperature Plasma Diagnostics

<https://www.fltpd2024.cz/>

FLTPD 2024 venue: Liblice Castle near Prague, Czech Republic, April 28-May 2, 2024

FLTPD 2024 Sponsor and Sponsor/Exhibitor

The 15th Frontiers in Low Temperature Plasma Diagnostics (FLTPD XV) workshop is the continuation of a very successful series that started in 1995 in Les Houches (France) and became an important forum for researchers dealing with low-temperature plasma diagnostics. Recent FLTPD events were held in Bad Honnef, Germany (2019) and Levico Terme, Italy (2022).

The workshop's primary goal is to enable an intensive meeting of experts in low-temperature plasma diagnostics and to present the latest developments in the use of a whole range of diagnostic tools for investigating both the basic properties and various applications of low-temperature plasmas. It also provides a unique opportunity for a new generation of researchers to discuss the field's current state-of-the-art and future prospects with leading scientists. The program traditionally consists of expert presentations by invited speakers, presentations by selected topical speakers and poster presentations.

FLTPD workshops serve to meet experimentalists (mostly leading scientists) who use a wide range of diagnostic instrumentation in their labs, such as fast oscilloscopes, lasers, various optical/FTIR/mass spectrometers and components, advanced multi-channel CCD/ICCD detectors or vacuum instrumentation and components. FLTPD thus offers manufacturers and suppliers of relevant instrumentation an interesting opportunity for a targeted presentation of new products. It also allows publishers to reach out and invite potential authors to submit their works to relevant journals.

On behalf of the FLTPD XV Local Organizing Committee, we would like to invite representatives of scientific equipment manufacturers and representatives of journal publishers to participate in sponsoring the upcoming FLTPD 2024 event. We offer two options for conference sponsors: on-site (exhibition booth + marketing materials/tools distributed by FLTPD organizers) and virtual (marketing materials/tools distributed by FLTPD organizers). All sponsoring organizations will be recognized as FLTPD 2024 sponsors.

Marble hall

All exhibit booths will be placed in the poster-section room (Marble hall), next to the coffee-break lobby, which will certainly guarantee a meaningful interaction with all conference participants not only during the poster sections.

Sponsorship fees and benefits*

FLTPD Sponsor (virtual) (sponsorship fee 400 EUR)	FLTPD Sponsor-Exhibitor (in-person) # (sponsorship fee 800 EUR) #
<ul style="list-style-type: none"> The company logo will be posted on the FLTPD 2024 website, with an embedded link The company logo will be included in the slides with verbal acknowledgement during the welcome and closing address The company logo will be regularly presented during the PowerPoint slide show just before the start of each morning/afternoon lecture session The company logo will be placed in the FLTPD 2024 Program and Book of Abstracts One A5/A4 flyer or booklet distributed together with the conference materials 	<ul style="list-style-type: none"> The company logo will be posted on the FLTPD 2024 website, with an embedded link The company logo will be included in the slides with verbal acknowledgement during the welcome and closing address The company logo will be regularly presented during the PowerPoint slide show just before the start of each morning/afternoon lecture session The company logo will be placed in the FLTPD 2024 Program and Book of Abstracts One A5/A4 flyer or booklet distributed together with the conference materials Complimentary exhibition booth in the poster section area (Marble hall) Free participation in all scientific events including coffee breaks Complimentary conference dinner ticket

* We will be happy to discuss any additional form of the sponsorship (Best student poster prize or Student fee support)

Fee does not include accommodation expenses

To register as a sponsor or sponsor-exhibitor, please contact us for further info/instructions at fltpd2024@fltpd2024.cz or LOC FLTPD 2024, Pulse Plasma Systems Department, Institute of Plasma Physics of the Czech Academy of Sciences, U Slovanky 2525/1a, 182 00 Prague 8, Czech Republic.

Confirmed invited speakers

- Paolo Francesco Ambrico (ISTP-CNR Bari, Italy)
- Thierry Belmonte (University of Lorraine, France)
- Alexandros Gerakis (LIST, Luxembourg)
- Judith Golda (Ruhr-Universität Bochum, Germany)
- Sander Nijdam (TU/e, The Netherlands)
- Ryo Ono (The University of Tokyo, Japan)
- Gabi-Daniel Stancu (University Paris-Saclay, France)
- Hirota Toyoda (Nagoya University, Japan)

Important Dates

November 2023: 2nd Announcement and Call for Abstracts
 February 2024: Abstract Submission Deadline
 March 2024: Early Registration Deadline
 April 2024: Regular Registration Due
 April 28, 2024: Welcome drink at Liblice Castle

International Scientific Committee

- Uwe Czarnetzki (Ruhr-Universität Bochum) – Chair
- Gilles Cartry (Université Aix Marseille)
- Giorgio Dilecce (ISTP-CNR Bari)
- František Krčma (Brno University of Technology)
- Kirsty McKay (University of Liverpool)
- Nader Sadeghi (France)
- Ana Sobota (TU/e)
- Milan Šimek (IPP Prague)

Local Organizing Committee

- Milan Šimek (IPP Prague) – Chair
- Garima Arora (IPP Prague)
- Petr Bílek (IPP Prague)
- Jiří Fujera (IPP Prague)
- Petr Hoffer (IPP Prague)
- Václav Prukner (IPP Prague)
